

NEW!

MICROSITES

Let your participants personalize their tournament gift with our **NEW** microsite program!

It's easy... just pick one of our package options or create your own package based on your event budget. We'll create a webpage for your event that you can e-mail to players/guests & keep you updated on the participation progress based on your event date.

Not sure how it will work?

Package options are available OR you can create your own package!

Decide on your budget, and select 3-4 items from the catalog you would like to offer your participants.

Visit www.sterlingcutglass.com/microsite for more information and to see how the program works.
