Sterling Cut Glass

2017–2018
STERLING CUT GLASS INC. WAS FOUNDED IN 1902
and remains one of the oldest continuously operating
glassworks in the USA.

Sterling pioneered and perfected the deep etch
sandblasting technique on fine quality glassware and
crystal, obtaining a rich, crisply carved effect.

Sterling is the premier custom glass etcher in the United
States and offers its customized wares at wholesale pricing
to distilleries across the country. Many of our offerings
are imported from the finest crystal factories in the world,
including our exclusive relationship with the renowned
Polish Krosno Glassworks.

Sterling is the preferred supplier of custom etched crystal
to the golf industry through the PGA of America and is an
official licensee of the PGA Tour and the LPGA, as well as
the Kentucky Derby and US Tennis Open.

Thank you for choosing Sterling Cut Glass. We look forward

DEEP ETCH
Deep etch is our highest caliber etching technique, providing the ultimate appearance in etched crystal. Your crest or logo is crisply cut, rendering a detailed and permanent dimensional image. Please note: Etching will appear deeper in bold open areas of a logo and less deep in fine detailed areas.

LIGHT ETCH
Light etch is a delicate but permanent surface etch. As illustrated, the light etch technique does necessitate small breaks in any enclosed letter or area. When budgetary concerns are paramount, light etching provides a quality, yet economical solution.
