

STERLING

CUT GLASS

CORPORATE BARWARE COLLECTION

2024

ATTENTION CALIFORNIA RESIDENTS: Products containing lead require the Proposition 65 Leaded Crystal Warning (shown on page 204). Products requiring this warning have "Lead Crystal" noted next to the item.

For products labeled as handblown crystal glass or machine-made glass: these products contain no deliberately added lead. They contain very small amounts of environmental lead from sand and other ingredients used in the process.

New!

Art & Logo Set-Up

There is NO LOGO SETUP CHARGE for artwork submitted under VECTOR ART GUIDELINES*

Vector (adobe illustrator (ai), eps or vector pdf)

- Used for logos, text, and illustrations
- Can be scaled to any size without distortion
- Must be submitted in black and white
- Remains sharp at any resolution
- **FREE LOGO SETUP**

A vector file is used for the etching process.

**Light etch requires a \$50 stencil charge (one-time set-up only; does not apply to repeat orders)*

Raster (scanned images, jpgs, tifs, gifs, bmps, or raster pdfs)

- Defined by pixels
- Cannot be scaled without distortion
- Resolution dependent (not clear when resized)
- Logo setup charge \$50
- Highly complex raster images may incur additional charges

In order to maintain the clarity of the art and text, a raster file will need to be redrawn before it can be used in the etching process.

Submit artwork to sales@sterlingcutglass.com & art@sterlingcutglass.com

Please note: If a raster image is saved in a vector format, the artwork is still raster.

Art Proofs

To ensure accuracy of production, proofs will be emailed for all orders at no charge. Failure to approve proofs in a timely fashion could result in delivery delays, expedited shipping charges and rush order charges. Ship dates cannot be guaranteed for orders that are held up due to credit issues, missing artwork or delayed art approval.

Changes made after initial approval are subject to additional charges.

Virtual Sampling

Virtual samples available upon request. Email virtual@sterlingcutglass.com

Virtual images are for illustration purposes only and are not a proof.

Artwork will be set-up for deep or light etch after an order is placed and alterations will be made based on production guidelines. Light etch cannot be shown on virtual proofs due to setup work that is needed for artwork. Please direct questions to customer service.

Copy Set-Up & Personalizations

There are no setup charges for copy and personalizations on all awards and trophies (pages 4-127).

Copy and personalization charges on barware and gifts/accessories \$6 apply to pages 128-203.

Copy within artwork must be sent in outlines or accompanied by the font file. Additional copy and personalization must be sent in Adobe illustrator PDF or Microsoft Word document. Copy not submitted in proper format will result in art charges.

Blank Orders

All items are available "blank" (not etched) at 10% below the end quantity price. Blank returns are subject to a 10% restocking fee.

PROP 65 WARNING

Consuming foods or beverages that have been kept or served in leaded crystal products or handling products made of leaded crystal will expose you to lead – a chemical known to the state of California to cause birth defects or other reproductive harm.

ColorMark

Items available in ColorMark are indicated throughout the catalog. Please see Art & Logo Set-up guidelines for art set-up fees. ColorMark items are available for the same price as deep etch; if adding ColorMark to a deep etch item, please add \$15 for an award and \$10 for a gift.

Combination Orders

A single order for multiple items within a category is eligible for combination pricing.

Copyright

No part of this catalog may be reproduced or utilized in any form or by any means, electronic or mechanical, without the prior written permission of Sterling Cut Glass Company, Inc. Fairway™ and Fore™ represent registered trademarks of Sterling Cut Glass.

Custom Order/Non-Catalog Merchandise

Custom order or special order merchandise requires payment in advance (minimum 50% deposit) to initiate the order. Overruns and underruns up to 10% are industry standard. Orders for custom order merchandise are non-cancellable.

Drop Shipping/Split Shipments

For drop shipping directly from Sterling to your recipients, please add an additional \$7 per address plus shipping charges. Names and addresses must be supplied alphabetically in Microsoft Excel™ format (call customer service for template). See page 199 for international drop ships.

Enclosures

Additional charges may apply for insertions. For orders with multiple personalizations, packing label charges (setup and materials) may also apply. Please contact customer service for details.

Etching Areas

Etching areas listed are approximate. Sizing for your artwork will be determined by a number of factors, including shape of artwork, complexity of detail and specific customer requests. Additional charges may apply for artwork that extends outside the listed etch area. Contact customer service for further details regarding your artwork.

Decoration Process

See page 207 for a detailed explanation of our processes.

Freight Claims/Breakage

We carefully package all shipments to ensure safe arrival. In the unlikely event of breakage in transit, however, you must save for inspection the outer carton, all packing materials, and contents. Contact your distributor immediately. Sterling will initiate the claim for breakage or shortage on all shipments. However, we must be notified within 48 hours of receipt of goods in order to honor your claim. Replacements will be shipped via ground service within 48 hours of the breakage report.

Guarantee

Sterling Cut Glass guarantees all workmanship to be first quality. Because most of our offerings are hand crafted, it is natural for small air bubbles, chill marks and flow lines to appear. These unique variations are not considered defects. We make every effort to select pieces which demonstrate the finest representation of the craft, and to minimize any appearance of these characteristics in or around the etching area. Returns cannot be accepted without prior written authorization.

International Shipments

A shipping account number is required for all international shipments. A handling charge of \$15 will apply per each international destination. Phone numbers and email addresses are required; call customer service for our required template. Custom Duties and Taxes may apply, will be charged to the 3rd party shipper's account number, and could be billed 90 days or more after shipment.

Measurements

All capacities and sizes listed in this catalog are approximate and include the width of handles and dimensions of bases where applicable.

Minimum Order

Our minimum order is \$50. There is a \$15 less-than-minimum charge for orders below \$50.

Office Hours

Our friendly and knowledgeable customer service representatives are ready to assist distributors. Monday through Friday 8:00 a.m. – 5:30 p.m. EST. Contact: sales@sterlingcutglass.com

Opposite Side Etching

Some items allow space for a second side etch (e.g. the opposite side of a trophy or drinking glass). Please add a deep etch charge of \$4.50 per glass or small gift item and \$10 per trophy or award. In the case of large volume glassware orders opposite side light etching, where available, may be added for a surcharge of \$2 per glass.

Order Confirmation

All P.O.s are acknowledged via email. Please review the order confirmation very carefully for any discrepancies, and notify us immediately to make any corrections.

Overruns and Underruns

Sterling aims to ship exact quantities though glassware orders 250+ pieces are subject to a standard 5% over/under run policy.

Packaging

All merchandise is attractively packaged in protective boxes suitable for presentation as listed:

STANDARD GIFT BOXES

DECANTER SET GIFT BOX

PRESENTATION BOX

All barware, when not packaged in bulk, is tissue and gift boxed.

TYPE OF PACKAGING:	CONSISTS OF:
Bulk Packaging	Manufacturer's corrugated box, with partitions to protect contents.
Standard Gift Box	A navy colored, coated corrugated box; contents are wrapped in tissue (and protective foam as necessary).
Presentation Box	A rigid, laminated board box with the inside fitted to cradle and protect the contents. Available with optic crystal awards only.
Decanter Set Gift Box	Navy designer packaging, including full telescoping lid-for 3 and 5 piece decanter sets pictured on pages 128-134 when noted.

Payment Terms

Due to the custom nature of our product, first-time orders must be paid in advance. Sterling accepts personal or business checks, as well as Visa, MasterCard, American Express and Discover. Upon credit approval, Sterling can accommodate billing terms of net 30 days.

Invoices may be paid online at www.sterlingcutglass.com.

PGA Tour® & Kentucky Derby® Licensee

Sterling Cut Glass is able to offer qualified customers the use of the PGA TOUR®, Champions Tour®, Nationwide Tour® and Kentucky Derby® logos on most products in this catalog. Please call for details.

Production Time

Standard production time is 2-4 weeks from receipt of order and artwork, plus time in transit. **Lead times may be longer during our peak season.** If a paper proof or product proof is required, please allow one week to produce order after proof approval. Failure to approve proofs in a timely fashion could result in delivery delays, expedited shipping charges and rush order charges.

Purchase Orders

A purchase order accepted by Sterling Cut Glass is a binding contract. Upon mutual written agreement, a P.O. may be canceled for a fee of \$50, plus all incurred costs. Orders received after 2pm EST is considered as next business day.

Rush Orders

An order submitted allowing less than 10 working days may be subject to a 10% rush surcharge – \$50 minimum and possible expedited delivery charges. Please call sales or customer service for available production time.

Samples

Random samples requested to ship same day must be submitted by 1pm EST. Spec samples are invoiced for the cost of the item, set-up fees, plus shipping charges. Random and blank samples must be prepaid by credit card unless net 30 terms have been pre-established. Samples \$25 per piece or greater may be returned for credit when merchandise is returned in good condition within 30 days. Freight charges cannot be credited. Shipper number may be required.

Shipping

Orders are shipped prepaid with freight and handling charges added to the invoice. All shipments are F.O.B. Erlanger, KY 41018 (Greater Cincinnati, Ohio). Our standard method of shipping is UPS ground; however, common carrier truck shipments, as well as air freight services are also available. Shipments will be automatically accompanied by a shipping notification via e-mail when an e-mail address is provided. C.O.D. orders are not accepted. Third party shipping is available at no charge. Due to variances in packing and freight carriers, all freight estimates are estimates only. Additional charges may apply when incorrect shipping addresses are given on purchase orders.

Shipping Estimates

When time allows, our service department is able to provide shipping ESTIMATES. These are estimates only and DO NOT reflect completely accurate shipping totals. Additional charges may apply to lift gate or inside delivery freight services.

Trademarks

Liability for correct use of a trademark, crest or logo rests with the customer. The logos shown in this catalog represent orders from our customers and are used for illustration purposes only. These logos are the exclusive property of the respective institutions. Sterling Cut Glass cannot accept distributor orders for golf and country clubs using golf and country club crests or logos, without the direct written permission of the club professional or authorized club representative.

Prices in this catalog are effective through 10/31/24; subject to change without notice.

PRODUCT CARE INSTRUCTIONS

Due to the delicate nature of glass and crystal, hand washing is recommended. Dry with a lint-free cloth to prevent scratching. To avoid breakage, do not expose glass or crystal to extreme temperatures or to abrupt temperature changes.

Glass

The process of glassmaking has remained essentially the same since ancient times. Most glass is a mixture of silica, obtained from beds of fine sand or from pulverized sandstone, an alkali to lower the melting point, usually a form of soda or potash for finer glass, lime as a stabilizer and cullet (waste glass to assist in melting the mixture).

The materials are fused at high temperatures in seasoned kilns, boiled down, skimmed, and cooled several hundreds of degrees. The molten glass is ladled or poured into molds and pressed or blown (sometimes into molds). The shaped glass is annealed to relieve stresses caused by manipulation, then is slowly cooled.

Non-Lead Crystal/Crystalline

Non-lead crystal is glass with a high content of potash, yielding weight, clarity and sparkle without adding lead content.

Lead Crystal

The addition of lead to the glassmaking process yields a product with increased luster, clarity and weight. It is also a slightly softer material than glass, which lends itself well to hand cutting and polishing. Leaded crystal varies in lead composition, but to be considered full lead crystal, the lead content must be 24% or higher. The higher the lead content, the more sparkle is achieved, but more skill is required to form a shape at the blowing stage.

PROP 65 WARNING

Consuming foods or beverages that have been kept or served in leaded crystal products or handling products made of leaded crystal will expose you to lead – a chemical known to the state of California to cause birth defects or other reproductive harm.

Starfire Crystal

Starfire crystal is a lead-free, low iron product that presents high clarity resembling that of optical crystal, but at lower cost. Highly polished, this material produces a bright white sparkle and is therefore sometimes referred to as “white glass”.

Cased Crystal

A unique artistic technique where clear crystal is permanently encased in a translucent layer of richly colored crystal.

Pewter

Pewter is a metal alloy consisting primarily of tin. Pewter does not tarnish. Always wash pewter products by hand in warm soapy water and dry with a soft cotton towel. Pewter products are all hand crafted and are food safe, containing no lead.

Sand Cast Aluminum

Sterling's aluminum products are food safe. Each piece is sand cast and polished from a metal alloy consisting mostly of aluminum. Slight variations in finish and surface texture are the result of this handmade process, and are considered intrinsic to their unique design. The acids in certain foods may cause discoloration. A light coating of vegetable oil prior to use can help prevent this. If polishing or extra cleaning becomes necessary, apply a non-abrasive metal polish and gently buff with a soft cotton cloth.

Silver-Plated

Silver-plated products are genuine silver, plated over brass. Silver plated products are all lead-free and food safe. All silver will tarnish over time, particularly in humid conditions. If polishing is necessary, use a silver polishing compound and gently buff the surface with a soft cotton cloth so as not to erode or scratch plating.

Nickel-Plated

Nickel-plated products are genuine nickel, plated over brass. This durable finish is highly tarnish resistant. To clean, gently buff the surface with a soft cotton cloth.

Copper-Plated

Copper-plated products are genuine copper, plated over brass. This durable finish is tarnish resistant. To clean, gently buff the surface with a soft cotton cloth.

Antiqued Brass

Antiqued brass products are brass-plated with a layer of antique finish and lacquer-sealed. This durable finish is tarnish-resistant. To clean, gently buff the surface with a soft cloth.

Acacia Wood

Acacia wood products are handcrafted from acacia wood, a sustainable hardwood grown and replanted in Thailand. Food safe. Hand clean with a damp cloth. Wood is a natural material with varying color and grain direction resulting in variations of color within each board. Each board is unique and variations in color will occur during the engraving process.

Bamboo Wood

Bamboo wood products are handcrafted from bamboo, a durable stalk fiber sustainably harvested from China. Food safe. Hand wash in soap and warm water. Towel dry or air dry on edge. Wood is a natural material with varying color and grain direction resulting in variations of color within each board. Each board is unique and variations in color will occur during the engraving process.

Leatherette

Our leatherette collection features soft faux leather products with distinctive colors revealed beneath the surface when engraved for maximum logo presentation.

DEEP ETCH *OUR FINEST QUALITY ETCHING TECHNIQUE*

Deep etch is our highest caliber etching technique, providing the ultimate appearance in etched crystal. Your crest or logo is crisply cut, rendering a detailed and permanent dimensional image.

Please note: Etching will appear deeper in bold, open areas of a logo and less deep in fine, detailed areas such as copy.

LIGHT ETCH *WHEN BUDGET IS PARAMOUNT*

Light etch is a delicate but permanent surface etch. As illustrated, the light etch technique does necessitate small breaks in any enclosed letter or area. When budgetary concerns are paramount, light etching provides a quality, yet economical solution.

Items ordered in light etch require a minimum quantity of 72 pieces of that item with the same copy. AWARD COPY AND PERSONALIZATIONS ARE NOT AVAILABLE IN LIGHT ETCH.

COLORMARK *CREATE UNIQUE AWARDS WITH COLOR*

The UV printing process allows for printing on almost any flat object or surface, which lends itself well to glass, crystal & metal finishes. Printing with UV allows for any logo or text to be printed without limitations, producing unique and colorful awards and gifts.

ENGRAVING *IDEAL FOR ENGRAVING METAL TROPHIES, GIFTS & AWARDS*

Diamond engraving uses a non-rotating tool with a cone-shaped diamond tip, which is dragged with pressure through metal, leaving a beautiful impression. Diamond-drag creates quality engraving that compares to hand engraving. The width of stroke is constant and does not vary in depth.

Diamond-drag is recommended for soft metals such as silver, copper, pewter, aluminum and nickel.

LEATHERETTE

COATED STEEL

WOOD

REVERSE ENGRAVING

LASER ENGRAVING

Laser engraving creates a digital "burned" image from a directed laser beam, which vaporizes the substrate material. The resulting image is detailed, permanent and indelible.

**Wood is a natural material with varying color and grain direction resulting in variations of color within each board. Each board is unique and variations in color will occur during the engraving process.*

BOTTOMS UP ETCHING

Much of our barware is available for etching on the bottom of the glass.* This method of decorating offers a subtle approach to promoting your logo or brand. Contact your sales representative for details.

**While some barware is ideal for bottom etching, some selections have watermarks or imperfections not suitable for bottom etching.*

STEM FOOT ETCHING

Much of our stemware collection is available for etching on the base of the stem's foot. This decoration method offers a more subtle approach to promoting your logo or brand. Contact your sales representative for details.
